Subject: RE: Someone is volunteering to donate a surface washing agent from the Product Schedule. I will tell them no etc. etc. unless you have a mechanism or a person on the RRT who generally handles these questions. Thanks. Ann

Steve, I will forward to the VAL...it's a specialized request, but I would still like to see if they can help!

Cheers,
e

Can you pass this on to the appropriate people... A surface washing agent may be used to remove oil/petroleum products off surfaces (boats, walls, etc)

With Regards, Steve

We received this phone call from Kaitlin Dare (sp?) 1-954-789-5656. She would like to donate a Surface Washing Agent from the Subpart J product schedule called Formula 206 1x.
